

Product Information Sheet

ADJUSTABLE RACK BRACING KIT

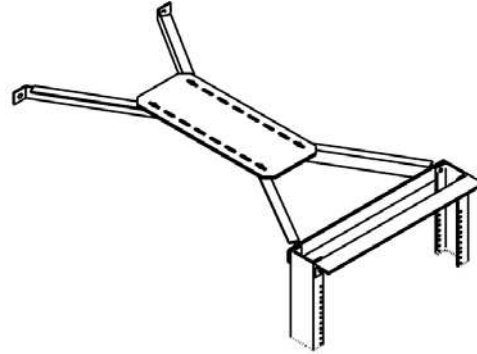

This adjustable, strong, easy to install rack bracing kit provides a cost effective, attractive solution to bracing an equipment rack or auxiliary frame. It attaches directly to the wall and rack top with bolts to provide positive bracing.

Simply:

- 1) Mount the kit onto the wall using two bolts.
- 2) Mount the other side onto the top rack using two bolts.
- 3) Bolt the center section to fit required depth.

- Adjustable 24" to 36" depth from wall
- Made of strong lightweight aluminum
- Available in 19", 23" and 25" widths
- Available in four colors to complement rack installations

Note: For secure bracing, it is recommended that the rack/frame be secured to the floor with CPI Rack and Frame installation Kit (P/N 40604-001 or 40607-001).

Part Number			Color	Shipping Weight
19" Rack	23" Rack	25" Rack
