Product Cut Sheet

M-SERIES MEGAFRAME® CABINET SYSTEM

The M-Series MegaFrame[®] Cabinet System is made from aluminum and can be shipped partially assembled in a reduced package size making it easier to move and store when space is limited on the job site. The M-Series MegaFrame Cabinet System supports a vast array of potential applications. The cabinet is available in a variety of sizes to match equipment and facility requirements.

Specifications:

- Available in two widths, three heights and four depths (24 frame sizes)
- Provides front and rear support for 19" EIA or 23" wide equipment
- Mounting rails are fully adjustable and rack-mount units (U) are marked and numbered to simplify equipment installation
- Includes one vertical cable manager, one mounting bracket kit for a vertical power distribution unit (PDU), one baying kit, leveling feetand floor attachment clamps
- Order with or without a top panel, side panels and doors
- Top panels have six cable access holes and a vented center area that accepts an accessory fan kit
- Side panels are solid and include a keyed lock
- Doors are available in a variety of solid or vented styles, are reversible to open from the right or left and include a keyed lock
- Aluminum frame, bolted construction: delivers partially or fully assembled
- Load rating: 2000 lb (907.2 kg)
- UL Listed

Each Cabinet Includes:

- (1) Four-Post Frame (anodized aluminum finish)
- (4) Vertical Mounting Rails
- (2) Locking, East-To-Remove Side Panels
- (1) Locking, Reversible Front Door
- (1) Locking, Reversible Rear Door
- (1) Vented Top Panel & Six Cable Access Ports
- (2) Vertical Half-Height Cable Manager
- (1) Vertical PDU Mounting Bracket Kit
- (4) Leveling Feet
- (1) Multi-Bay Attachment Hardware Kit
- (4) Floor Anchor Clamps
- (1) Bag of Mounting Hardware:
- Tapped Rails: (50) #12-24 screws
- Square-punched rails: (16) M6 and (25) #12-24 cage nuts and screws

Product Cut Sheet

M-SERIES MEGAFRAME® CABINET SYSTEM

Part Number Configurator

When ordering an M-Series Cabinet, the part number is always preceded by the letter M. 1st Digit - Width

How wide is your equipment mounting requirement?

2nd Digit - Height How tall a cabinet do you need? Call tech support for 8' (2.4 m) cabinet part numbers.

3rd Digit - Depth

What is your maximum mounting depth requirement? 4th Digit - Cabinet Style

Choose your rail style and panel requirement. CPI offers tapped 12-24, square-punched vertical mounting rails, Sun® and IBM® rails. Rails are also available in half heights as an accessory.

5th Digit - Color

Color refers to side panels, vertical mounting rails and metal/perforated metal door panels. Frame is anodized aluminum.

6th Digit - Doors

Appearance and ventilation requirements will determine your door style. The plexiglass door is a "smoked" plexiglass.

7th Digit - Shipping CPI Cabinets are available partially assembled (or "knocked

down") and fully assembled.

Cabinets are also available as a frame only (bottom matrix). For further assistance call 800-834-4969.

Cabinet Style 2=Tapped rails, no top or side panels

5=Square-Punched rails, no top or side panels

*Server rail styles are only available on cabinets 36" (910 mm) or 39" (990 mm) in depth. **Color refers to mounting rails side panels and metal/perforated metal door panels. Frame is silver-colored anodized aluminum.
